Several thousand organizations from across the country were invited, and more than 1,100 participated in the Top Workplaces USA survey. Winners of the Top Workplaces USA list are chosen based solely on employee feedback gathered through an employee engagement survey, issued by Energage. Results are calculated by comparing the survey's research-based statements, including 15 Culture Drivers that are proven to predict high performance against industry benchmarks. "During this very challenging time, Top Workplaces has proven to be a beacon of light for organizations, as well as a sign of resiliency and strong business performance," said Eric Rubino, Energage CEO. "When you give your employees a voice, you come together to navigate challenges and shape your path forward. Top Workplaces draw on real-time insights into what works best for their organization, so they can make informed decisions that have a positive impact on their people and their business."
