

## ***Kelley Kronenberg Proudly “Goes Pink” in Support of Breast Cancer Awareness***

---

Did you know that approximately **1 in 8** U.S. women will develop a form of invasive breast cancer over the course of her lifetime? It is the most common cancer in women, among nearly every racial and ethnic group. **Men** get breast cancer too. Every year, approximately 232,00 women get diagnosed with breast cancer. As of January 2018, there are more than 3.1 million women with a history of breast cancer in the U.S.

With many of our colleagues donating their time and providing financial support to organizations that are involved in the fight against cancer, Kelley Kronenberg proudly supports the cause and is going **PINK** in October!
