

Navigating the intricate landscape of Personal Injury Protection/No-Fault law demands an astute understanding of its intricacies. Within Kelley Kronenberg's specialized division dedicated to this practice area, our adept attorneys across Florida and New York possess in-depth knowledge regarding the challenges insurance carriers face in upholding compliance with the applicable PIP/No-Fault statutes and regulations.

**Shielding Your Interests**

Our mission is to stand as a staunch defense counsel for local and national insurance companies. We vigilantly unearth any insurance fraud or misrepresentation, protecting your company's integrity and bottom line. Collaborating closely with claim handlers and specialized investigation units (SIU), our legal experts meticulously conduct thorough Examinations Under Oath (EUO) and delve into the depths of suspicious claims. This allows us to make informed decisions regarding whether a claim should be honored or a firm denial on the grounds of fraud is necessary.

**Strategic Partnerships for Solid Defense**

Partnering seamlessly with our clients, we craft tailored, efficient, and powerful defense strategies. Our focus is safeguarding insured parties from deceitful claims stemming from motor vehicle accidents. From handling Civil Remedies Notices to vigorously defending a carrier's benefit denials or reductions in the courtroom, our attorneys possess the requisite skill and proficiency to meet the dynamic demands of the industry.

**Decades of Experience, Tailored Solutions**

Backed by decades of collective experience, our seasoned attorneys are adept at catering to the unique requirements of our esteemed insurance clients. Our holistic approach, encompassing a wealth of expertise in insurance defense practice, is fortified by our strategic planning capabilities, all aimed at securing the best possible outcomes for our valued clients.
