

Kelley Kronenberg's Personal Injury Protection (PIP) practice group understands the intricacies of this area of law and the issues facing insurance carriers to ensure compliance with Florida's No-Fault/PIP statute.

We serve as defense counsel to local and national insurance companies by working to uncover any insurance fraud or misrepresentation. Attorneys work closely with claim handlers and special investigations unit (SIU) departments, conduct comprehensive examinations under oath (EUO), and thoroughly investigate suspicious claims to determine if a matter should be paid or whether a fraud denial is appropriate.

Our Attorneys partner with our clients to formulate efficient and effective defense strategies to protect insureds from fraudulent claims in motor vehicle accidents. From responding to a Civil Remedies Notice to defending a carrier's denial or reduction of benefits at trial, our Attorneys have the talent and expertise necessary to meet the needs of the industry.
